

MORNING APPEAL.

Saturday, January 29 1887.

A POSSIBLE CONTINGENCY.

The Governor of Nevada and the Governor of Idaho are brothers. The latter is a Democrat and the former a Republican, therefore, politically speaking, one is a saint and the other is a sinner. The Idaho Stevenson, in his message to the Legislature, protests against the annexation of any part of his Territory to Nevada, while the Nevada Stevenson is silent on the subject of annexation. If the proposed scheme of extending the Northern boundary of Nevada to a line running East and West from Mount Idaho is carried into effect it is possible that the brothers may be pitted against each other in the next gubernatorial contest, as were the Taylor brothers in Tennessee last election, one of whom was a vocalist and the other a violinist, and the choice was determined by the popularity of the airs which the one sang and the other played, the fiddler coming out several thousand ahead. In view of this contingency and the experience of the Taylors, the Silver State would respectfully suggest to the Idaho Governor, if he does not already understand drawing the bow and fingering the catgut, that he take lessons at once and practice unceasingly until he can play Rack-back Davy and the Arkansas Traveler, with the variations, so that he can carry the State by storm, as it were, and get an almost unanimous vote in the mining camps and outside precincts. Fiddling especially, if the tunes are popular, is a much more effective method of electioneering than stump speaking, as it gets the men in good humor, and insures the musician the enthusiastic support of the women folks.—Silver State.

GOOD FOR JOE DOUGLAS.

Day before yesterday Joe Douglas sent \$10,000 worth of silver to the Carson Mint. Douglas is a leading Democrat and he evidently wants to keep the Mint in operation. There are leading Republicans also in the State who are silver producers and they should not let party considerations keep them from patronizing the Mint of Nevada. Let it not be said that the Democrats send more silver to the Mint than Republicans. The APPEAL would next month like to record at least \$100,000 sent to the Mint from Republican silver producers. The closing of the Mint will be a hard blow to silver interests of the coast and the West. Every effort should be made to keep the Mint running, and silver ought to be stacked up there as high as the ceiling, to refute the assertion made by the Eastern gold bugs that the silver resources of the West are playing out. When a silver producer ships his bullion to San Francisco to make a few dollars more on it, he loses in the long run, for he is slowly but surely undermining his own business by placing weapons in the hands of the gold men to fight him with. He is helping to close the Carson Mint. Were that institution to be wiped out, it would be a set back to Nevada. Let the Republican bullion producers see to it that they make a better showing than the Democrats for it will benefit the party and the State together.

THE CHOLERA.

The cholera has crossed the Atlantic, is spreading in Chili and treading its deadly way up the coast. Unless great precautions are taken it will reach California and fasten itself on San Francisco. When it reaches that city where the dollar limit of taxation keeps the sewers choked with filth and the streets dirty beyond description it will mow down the populace. Several years ago Peter Burk, the inventor of the only practical sewer flusher ever made, offered his invention to the city for \$50,000. The Board of Supervisors refused to adopt the plan unless the inventor paid them \$50,000. Burk is now dead but his patent will some day be looked upon by practical men as the best defense against the cholera scourge ever devised. The model is still to be seen at the office of Dewey & Co., Market Street. If the Supervisors will allow the use of this patent the horrors of Burk would be ready to allow it

for a reasonable sum. Its adoption at the time it was offered would have saved thousands of lives and thousands of dollars.

—Pinkerton's men have become a feature of every great strike in the East, and a very unpleasant feature. There should be no need of private forces to suppress riots, and there is particularly no need of a body of men imported from other States. The power of the police should be enough, and it usually is; any additional aid should either be under the direct control of the Chief of Police, or else the militia should be relied upon.

—It is reported that the railroad hospital, now located in Sacramento, will shortly be removed to Reno. The more central location and equable climate are said to be the principal reasons for the contemplated change.

ROYAL BAKING POWDER
